

FROST *Fighter* PORTABLE HEATERS

Optional Multipurpose Digital Power meter and Fan By pass Switch. ***For the IDH400QR&IDH500QR***

Optional meter showing voltage being supplied to the heater. Helps reduce unnecessary service calls due to low power.

Meter showing total amperage draw for the unit

Meter showing the watts being used by the heater

Meter showing the hertz being supplied to the heater

Included with the multipurpose power meter is a fan by-pass switch which allows the fan to run without the burner. Allows the unit to provide powerful ducted fresh air
